

## A career in the oil and gas industry

### Social Investment Coordinator

The purpose of this role is the development and execution of appropriate social investment programmes within our areas of operation

Your responsibilities and key objectives will be:

- Executing a Social Investment Strategy that supports operations and enhances community development outcomes.
- Ensuring social investment initiatives deliver against agreed objectives
- Ensuring the efficient delivery of agreed development programmes.
- Supporting the delivery of Tullow Group initiatives in health and education.

You should have a degree in humanities, social science or arts

You will need:

- At least three years experience in community development or social performance.
- Experience working with extractive industries or major infrastructure projects
- Project management and coordination skills
- Experience in delivering social investment programmes within remote environments
- Excellent oral and written communication skills.
